## RACK RATES

(Valid from 1st January-31st December 2012)

Machame-Nkweshoo Cultural Tourism was established with the **Vision of** Making Kilimanjaro a green village through tourism. The programme aims at distributing the benefits to local communities by ensuring active participation in tourism and environmental conservation and empowerment of women in the region. It is directly operated by local people under the umbrella of **Tanzania Tourist Board-Cultural Tourism Programme**. Income generated by 100% remains to the community by paying all sorts of operational costs such as tour guiding fees, coordination fees, contact person's fees, supporting community development projects (water, health, education, ecological restoration & environmental conservation) and training of local service providers.

Machame people welcome you to enjoy Cultural and Natural Heritage of the Chagga on the green slopes of Mt. Kilimanjaro where various authentic cultural tours are organized for visitors.
